Target Date Funds 101

It has been three years since the introduction of Target Date Funds to the Horizons Plan. If you participated in the Plan in October 2008, you may remember that—unless you designated otherwise—your balance within the risk-based Pre-assembled Portfolios was “mapped” to a Target Date Fund that most closely matched the asset allocations of the portfolio you were invested in previously.

Now that Target Date Funds are fixtures in the portfolios of so many Horizons participants, the Plan Administrative Committee (PAC) thought it would be a good idea to review how Target Date Funds can simplify investing and answer some questions you may have about how the funds work.

What is a Target Date Fund?

Horizons Target Date Funds are pre-built, diversified portfolios designed for people who want to leave ongoing investment decisions to an experienced portfolio management team. With Target Date Funds, investing is as easy as picking the year that most closely corresponds with your expected retirement date or the year you want to begin taking withdrawals (see this quarter’s article “Piece Together Your Financial Future” later in this newsletter for more clarification). The funds with dates furthest in the future have the most aggressive fund allocation and invest primarily in stocks (also known as equities). After you select a fund, the transition from an aggressive to a more conservative allocation happens automatically over time.

Which Target Date Fund is right for me?

Because the original mapping process was based on matching the risk levels of the Pre-assembled Portfolios with those of the Target Date Funds, your previous investment fund selections may

not be the most appropriate ones for your anticipated retirement year. For example, a young investor with a very conservative portfolio in 2008 may have been mapped to a Target Date Fund more appropriate for someone with an anticipated retirement date just 10 years away. That investor may want to consider changing his/her investment to a Target Date Fund that more closely matches his/her planned retirement date.

What is the performance history of Target Date Funds?

Since the Horizons Target Date Funds are customized investment options created in 2008, performance track records were not available for review at that time. Now, however, you can review the investment track record for all of the funds for the past three years. See this quarter’s *Cyber Smarts Web Tip* later in this newsletter for information on where to find the performance history and other facts about Target Date Funds on the Horizons website.

Should I invest in more than one Target Date Fund?

You only need to select one Target Date Fund to have a diversified portfolio with a professionally selected asset allocation. If you invest in more than one Target Date Fund, the result could be a mix of investments with a combination of risk and return potential that isn’t recommended for someone with your anticipated retirement date.

If you currently have money in more than one Target Date Fund, or if the year you plan to retire or start taking money from Horizons does not closely match the Target Date Fund you have, consider taking just a few minutes to consolidate monies and/or select a different Target Date Fund that corresponds to your retirement timeframe.

Continued on page 2

Ready to make the change? Follow these easy steps:

1. Log in to your Horizons account at www.countyla.com.*
2. Click on the Change Account tab at the top of the page.
3. Click on the Redirect Future Contributions link.
4. Direct 100% of your current allocation to one Target Date Fund of your choice and click Continue.
5. Reallocate your current account balance according to your selections by checking the “Reallocate Current Account Balance” box, and then click Continue.
6. You will then be prompted to review your request. If all of the information is correct, click Submit.

How and why does a Target Date Fund change over time?

This chart shows how a Horizons Target Date Fund gradually shifts toward more conservative investments as it approaches its target date (your anticipated retirement year).

FOR ILLUSTRATIVE PURPOSES ONLY. Generally, investments in more aggressive options have greater risk as well as greater return potential. Conversely, investments in more conservative options have lower risk as well as lower return potential.

When your retirement is many years or even decades in the future, the mix of investment options is likely to be more aggressive because you probably have time to weather the market’s ups and downs, and the Target Date Fund has the potential to provide long-term growth. When your retirement is just around the corner, your investment lineup should probably consist of more conservative, fixed or income-based funds. That way, the risk of losing a substantial amount of your savings may be reduced. By investing in a Horizons Target Date Fund, adjustments are made for you automatically. Please note that the principal value of the funds is not guaranteed at any time, including the target date.

What happens when my fund reaches its target date?

Your fund doesn’t disappear when you reach the target date (which should be sometime around the year you retire or start taking money from Horizons). For the ten years following the date named in the fund, the asset allocation continues to automatically move to a more conservative mix of investments. After ten years, the fund merges into the Horizons Retirement Income Fund. The Horizons Retirement Income Fund is focused more on income preservation rather than income generation.

What if I don’t want to invest in a Target Date Fund?

If you’re a confident investor who’s comfortable researching and selecting your own investments and managing your account over time, you still have the flexibility to assemble your own portfolio from the asset class investment options available through the Horizons Plan or the Self-Directed Brokerage Option available through Charles Schwab.

Please consider the investment objectives and risks, as well as fees and expenses, carefully before investing. For this and other important information, you may obtain fund fact sheets and disclosure documents from your registered representative at (800) 947-0845 or through the website at www.countyla.com. Read them carefully before investing.

* Access to the Los Angeles County Service Center and website may be limited or unavailable during periods of peak demand, market volatility, systems upgrades/maintenance or other reasons.

Target Date Funds: Helping Solve Your Retirement Income Puzzle

DOWN

1. With a single investment choice, Target Date Funds provide a diversified _____.
2. Your target date is the year you expect to _____.
3. Through a mix of investments, Target Date Funds help you _____.
6. To change your investments or increase your contribution rate, visit www._____.la.com and click on the Change Account tab.

ACROSS

5. For younger investors, the investment mix of Target Date Funds is more _____.
7. Professionally selected asset _____ is a key feature of Target Date Funds.
8. The number of Target Date Funds you should select is _____.

Answers on page 4.

Cyber Smarts Web Tip:

Accessing Fund Information

You can find comprehensive information on all the investment options available in your Horizons Plan—including Target Date Funds—anytime on the Horizons website.

- Log on to your Horizons account at www.countyla.com.
- Select “Fund Options” from the menu bar.
- Choose “Fund Data Sheets” for detailed information on a fund’s objectives, holdings, assets, risk, and other characteristics.
- Choose “Fund Performance” to review a fund’s returns over a specified timeframe.

Piece Together Your Financial Picture

Target Date Funds are designed to make investing easy. Instead of researching and selecting multiple investments to build a diversified portfolio, you only need to select a single Target Date Fund. So which Target Date Fund should you choose?

■ ■ ■ ■ ■ THIS QUARTER'S TIP

- 1. Add your year of birth to the age you expect to be when you retire.** For example, if you were born in 1965 and you expect to retire at age 65, the year of your anticipated retirement is 2030, or 1965 + 65.
- 2. Choose the Target Date Fund with the number that most closely matches the result.** In our example, the investor would select the Horizons 2030 Target Date Fund.

Year of Birth	Target Date Fund
On or before 1943	= Income Fund
1943–1947	= 2010
1948–1952	= 2015
1953–1957	= 2020
1958–1962	= 2025
1963–1967	= 2030
1968–1972	= 2035
1973–1977	= 2040
1978–1982	= 2045
On or after 1983	= 2050

- 3. Consider increasing your contribution amount.** The evolving asset allocation and diversification that Target Date Funds provide are just part of a smart retirement planning strategy. To reach your retirement income goals, you may want to contribute more to build up your nest egg.

Coming Soon:

Target Date Fund Enhancements

The PAC is continually evaluating ways to improve the Horizons investment lineup, including the Horizons Target Date Funds. Recently, the PAC identified the emerging market equity and emerging market debt asset classes as potential growth areas and has added investments for these asset classes to the Target Date Funds. This change also helps further diversify the investment mix within each fund. The recently added funds include:

- Emerging Markets Equity Fund managed by Dimensional Fund Advisors
- Emerging Market Debt Fund managed by Standish
- Inflation Protection Fund managed by State Street Global Advisors

Keep in mind that the Emerging Markets Equity and Emerging Market Debt Funds will not be offered as separate investment options. They are being added only as components of the Target Date Funds' investment mix.

The Horizons Annual Fund Data Booklet Goes Green

Since the PAC is committed to saving paper and the environment, we are offering the annual update of the fund data booklet online. The booklet contains overviews of each core investment and other information on the investments available in the Horizons Plan.

We're making this change for two reasons: 1. To support the County's Go Green initiative; and 2. To reduce printing and mailing costs. In the recent Horizons survey, a majority of respondents said they'd prefer the convenience of accessing this information online versus a hard-copy mailing.

In late March, you may view the fund data booklet online by visiting the Horizons website at www.countyla.com. Click on the "Fund Options" tab and then on the "Fund Data Sheets" link. If you'd like to receive a hard-copy booklet, you can call the County of Los Angeles Service Center in late March at (800) 947-0845 to request one.

Keep in mind that fees and expenses are only one of several factors that you should consider when making investment decisions. Please consider the investment objectives and risks, as well as fees and expenses, carefully before investing. For this and other important information, you may obtain fund fact sheets and disclosure documents from your registered representative at (800) 947-0845 or through the website at www.countyla.com. Read them carefully before investing.

Since most of the funds are brand new, there is the potential for a slight difference in performance results as assets are deposited into the funds. These return differences will be minimal and should normalize once the funds have developed a longer history behind them. Current performance may be lower or higher than performance data shown. Performance data quoted represents past performance and is not a guarantee or prediction of future results. For performance data current to the most recent month end, please visit www.countyla.com. The investment return and principal value of an investment will fluctuate so that, when redeemed, shares/units may be worth more or less than their original cost. Although data is gathered from reliable sources, we cannot guarantee completeness and accuracy.

The net returns shown above reflect fund operating expenses, but do not include current administrative fees.¹⁰ For more information on how these administrative fees are assessed to your account, please refer to the Schedule of Participant Fees in the Fund Data Booklet or visit the website at www.countyla.com.

About the Investment Options

The Plan Administrative Committee (PAC), with the consultation of outside advisors not affiliated with Great-West Retirement Services®, has set the underlying allocation of the Horizons Target Date Funds and the Horizons Asset Class Investment Options (sub-funds). The PAC may change the underlying allocation to the sub-funds at any time, without prior notification, pursuant to the investment guidelines established by the PAC.

¹ About Separately Managed Funds/Accounts

The Horizons investment options are designed exclusively for the Horizons Plan. The PAC has selected underlying fund managers who may manage Plan assets through a separate account, thereby reducing the fund operating expense charged to participants. A separate account means Horizons assets are invested separately from other clients of the fund manager. Therefore, performance data is based only on Horizons assets. Registration with the Securities and Exchange Commission is not required for any of the Horizons investment options.

² Transfer Restrictions

Transfers of \$10,000 or more into an investment option on a single day must remain invested in that option for a minimum of 10 business days. The last assets transferred into an investment option will be the first assets transferred out of the investment option. After any transfer of assets out of an investment option, no assets may be transferred into that investment option for 30 calendar days. Non-compliant transactions may result in the restriction of a participant's ability to make transfers. Additional information is available on the website at www.countyla.com.

³ Bank Depository Transfer Information

Effective February 16, 2010, monies cannot be transferred directly from the Stable Income Fund to the Bank Depository Fund. Instead, any monies transferred from the Stable Income Fund must first be transferred to one of the other core funds in the Plan (either the Target Date Funds and/or the Asset Class Funds). The monies must remain in that core fund for 90 calendar days before it can be transferred into the Bank Fund. In addition, once a transfer out of the Stable Income Fund is initiated, all investment options are restricted from transferring into the Bank Fund for 90 calendar days.

⁴ Important Information About the Target Date Funds

The Target Date Funds will be rebalanced automatically each quarter so they maintain their established percentage for each investment option. On an annual basis, the Horizons 2010 through 2050 Target Date Funds will be adjusted to a more conservative asset allocation. When the Target Date Fund reaches its "targeted year," the Target Date Fund will continue to exist as a "transition" fund with continued gradually declining exposure to equities for at least another 10 years beyond the retirement year until it is eventually absorbed into the Retirement Income Fund. The principal value of the funds is not guaranteed. Review the fund fact sheets for more information.

⁵ **A bond fund's** yield, share price and total return change daily and are based on changes in interest rates, market conditions, economic and political news, and the quality and maturity of its investments. In general, bond prices fall when interest rates rise and vice versa.

⁶ **Foreign investments** involve special risks, including currency fluctuations and political developments.

⁷ **Medium-sized companies** may suffer more significant losses, as well as realize more substantial growth, than larger capitalized, more established issuers.

⁸ **Equity securities** of companies with relatively small market capitalization may be more volatile than securities of larger, more established companies.

⁹ **Bank Depository Fund Insurance of Deposits and Account Balance Limit**
Assets invested in the Bank Depository Fund are insured by the Federal Deposit Insurance Corporation (FDIC) up to \$250,000. The current maximum balance permitted in this Bank Depository Fund is \$250,000. Any amount in excess of this limit will be automatically transferred to the Horizons Stable Income Fund at the end of each month. The Bank Depository Fund is the only investment product in the Horizons Plan that offers FDIC insurance on account balances. All other Horizons Plan investment products offered are not FDIC-insured and may lose value.

¹⁰ Administrative Fees

For the period July 1, 2011 through June 30, 2012, the monthly Plan administrative fee will be \$3.27 and the County administrative fee will be \$1.83. The total annual administrative fee charged to you for fiscal year 2011-2012 will not exceed \$61.16.

The Horizons Target Date Funds are invested in units/shares of the following underlying funds: Horizons Bond Fund, Horizons Large Cap Fund, Horizons Non-U.S. Equity Fund, Horizons Mid Cap Fund, Horizons Small Cap Fund, JPMorgan Property Fund, Mellon Global Alpha I, PIMCO High Yield Fund Institutional, PIMCO All Asset Fund and Wellington Unconstrained Themes.

The Asset Class Funds are comprised of the following: Horizons Inflation Protection Fund invests in units of SSgA U.S. Inflation Protected Bond Index Fund; Horizons Bond Fund invests in units/shares of Loomis, Sayles & Company, L.P. Core Plus Full Discretion and TCW/Metropolitan West Core Bond Fund; Horizons Balanced Fund invests in units/shares of Dodge & Cox Balanced Fund; Horizons Large Cap Fund invests in units/shares of SSgA S&P 500 Index; Horizons Non-U.S. Equity Fund invests in units/shares of Causeway International Value Equity Fund and Capital Guardian International (Non-U.S.); Horizons Mid Cap Fund invests in units/shares of SSgA Mid Cap Index Fund, Artisan Mid Cap Growth, Denver Investment Advisors Mid Cap Growth, Sasco Capital Mid Cap Value and WEDGE Capital Management L.L.P. Mid Cap Value; Horizons Small Cap Fund invests in units/shares of SSgA Small Cap Index Fund, Brandywine Small Cap Value, NorthPointe Capital Small Cap Growth Equity and Peregrine Capital Small Cap Growth Equity.

Access to the automated voice response system and website may be limited or unavailable during periods of peak demand, market volatility, systems upgrades/maintenance or other reasons.

Investment options have been selected by the Plan Administrative Committee. Core securities (except the Self-Directed Brokerage Account) are offered through GWFS Equities, Inc., a Great-West Company and FINRA member firm.

Securities available through Schwab Personal Choice Retirement Account® (PCRA) are offered through Charles Schwab & Co., Inc. (Member SIPC), a registered broker-dealer. Additional information can be obtained by calling (888) 393-7272. Charles Schwab & Co., Inc. and GWFS Equities, Inc. are separate and unaffiliated.

Great-West Retirement Services® refers to products and services provided by Great-West Life & Annuity Insurance Company and its subsidiaries and affiliates. Great-West Retirement Services® is a registered service mark of Great-West Life & Annuity Insurance Company. All rights reserved. ©2012 Great-West Life & Annuity Insurance Company.

A Reminder about

2012 Horizons Contribution Limits

CONTRIBUTION LIMIT (UNDER AGE 50)	\$17,000[†]
AGE 50+ CATCH-UP	\$22,500[†]
SPECIAL 457 CATCH-UP	\$34,000[†]

If you are age 50 or older, you may be automatically eligible to contribute up to the higher \$22,500 limit. If you are within three years of normal retirement age, you may be eligible to participate in the Special 457 Catch-Up limit. You cannot participate in both catch-up programs in the same year. If you are interested in participating in the Special 457 Catch-Up option, contact Great-West at (800) 947-0845 to get the process started.

† Includes employee and employer contributions.

You've probably noticed how the articles in this newsletter encourage you to contribute more to your Horizons account to help you build up the nest egg you'll need in retirement. As much as we encourage you to contribute more for your future, the IRS does set annual limits as to how much you can contribute each year (see chart for the 2012 limits).

Horizons Loan

Policy Update

The Horizons loan policy has been updated with respect to paying off your existing loan(s). If you choose to pay off your Horizons loan with a personal check instead of a certified check or regular payroll deductions, distributions and loans cannot be made from your account for 15 calendar days after the payment has been made to allow time for your personal check to clear. This change was made to prevent additional distributions/loans from being made before payments were properly credited to participants' accounts. Loans that are paid off with a bank-issued cashier's check or bank-issued money order are not subject to the 15 calendar-day rule.
