DEFERRED COMPENSATION BOARD

Annual Report to the City Council
Pension Management Office of the Finance Treasury Division

2010

I. HIGHLIGHTS

The Deferred Compensation Board oversees the City of Wichita Employees' Deferred Compensation Plan. The Board is comprised of three (3) elected employee participant representatives; one (1) elected retiree participant; one (1) City Manager appointee; and the Pension Manager (see Figure 4 on Page 5). The Plan is established within Internal Revenue Code §457 and by City Ordinance Chapter 2.30. The Deferred Compensation Plan allows participants to make tax deferred contributions of up to \$16,500 annually for calendar year 2010 and 2011.

Great-West Life & Annuity Insurance Company is the record keeper for the Plan. The firm was initially selected for a five-year contract in 1991 as the result of a Request for Proposal (RFP). Three subsequent RFPs were issued in 1996, 2001, and again in 2007. Great-West was selected each time as the provider for an additional five (5) years. The current contract expires March 31, 2013. A Great-West representative works in the Pension Office, which is located on the twelfth floor of City Hall.

In 2010, the City again used a nation-wide initiative to promote its Deferred Compensation Plan. Mayor Brewer proclaimed October 17–23, 2010 to be the second annual "Save for Retirement Week" at the October 19, 2010 City Council meeting. Several marketing activities took place surrounding this week, including: posting event flyers throughout City Hall and satellite locations; conducting a satisfaction survey; showing an interview with Mark Arnold, the City's Great West Retirement Services representative, about the Plan and the Save for Retirement Week activities; and sending electronic and paper copies of a simplified enrollment form and a compound interest flyer to all City Employees. The goals of this event were:

- To make employees aware of how critical it is to save now for retirement.
- To promote the benefits of getting started today.
- To encourage employees to take full advantage of employer-sponsored plans by increasing their contributions.
- To create a culture that promotes the value of saving for the future.

As a result of the "Save for Retirement Week" initiative, an estimated thirty-five (35) employees enrolled in the Plan and many more were made aware of the Plan and its advantages.

In 2010, Plan assets increased by \$7.9 million. This increase was attributable primarily to contributions and secondarily to capital gains. Contributions in 2010 exceeded \$5.2 million, their highest since inception of the Plan. Distributions of \$2.9 million were greater than 2009 (\$1.9 million), but were less than 2008 (\$4.6 million). In 2008, the Deferred Compensation Plan started offering participant loans. The outstanding loan balance as of December 31, 2010, was \$892,153, an increase of approximately \$100,000 over the prior year (see Figure 1).

During 2010, the Plan offered twenty-five (25) investment options representing a variety of asset classes and risk/reward options. Participants may select any combination of options and make changes to their investments and asset allocation as they desire. Figure 2 displays all investment options grouped by asset class. With almost 30% of the assets and 1,470 participants, Large Cap Equity continues to be the most popular asset class measured by both assets and total participants. Conservative options (Stable Value and Fixed Income) totaled 28.2% of the total Plan assets, down from 29.5% the prior year. The Putnam Stable Value Fund, as a single investment option, continued to have the highest percentage of the total assets at 23.7%, and the largest number of participants at 555.

After a decrease in Plan assets of \$13.8 million in 2008, Plan assets increased by \$10.5 and \$7.9 million in 2009 and 2010, respectively. Plan participation in 2010 increased for the fourth consecutive year (see Figure 3). This increase was aided by enrollments due to the previously mentioned “Save for Retirement Week” initiative.

¹. Participants include all employees and retirees with an account balance.

II. BOARD ACTIVITY

During 2010, the Deferred Compensation Board held five (5) meetings:

- four (4) quarterly meetings, and
- one (1) emergency hardship withdrawal meeting.

The Board took several significant actions in 2010, including:

1. At its May meeting, the Board approved the first Revenue Sharing Policy of the Plan. This policy states how revenue sharing dollars will be invested and for what purposes they can be used.
2. At its August meeting, the Board voted to switch from the Investor Share Class to the Signal Share Class for the Vanguard Total Bond Fund Index and the Vanguard Small Cap Index Fund. This change resulted in decreased fees for these investment options.
3. At its Annual meeting in November, the Board voted to move all Target Date Funds from a conservative to a moderate asset allocation glide path and further diversify the Funds by adding the following four (4) investment options to the Target Date Funds: 1) a Treasury Inflation Protected Securities (TIPS) fund; an Emerging Markets Bond fund; 3) an Emerging Markets Equity fund; and 4) an International Small Cap fund.

Ongoing education and familiarity with the 457(b) environment is an important objective of the Plan. To this end the Pension Manager, Barbara Davis, and one (1) Board member, Sean Seamster, attended the annual conference sponsored by the National Association of Government Defined Contribution Administrators, Inc. (NAGDCA) in September 2010.

Respectfully submitted,

Steve Warfield, President
Deferred Compensation Board
